

TESTIMONIALS:

There is nothing better than Satisfied Customers. Below are some written testimonials of clients that have worked with me in the past. I am happy to say that I have a 100% satisfaction rate.

Deciding to work with Lacey Creative has been one of the best decisions I've made since I went into business 3 years ago. Not only did Damon create a logo that I love he was able to capture the actual essence of my business with his design. He then took it a step further by guiding me in implementing the use of my logo in various ways to brand every aspect of my business. I now feel confident to step out in a big way as my business branding makes me feel like the professional that I am.

Damon is a top-notch designer – working with him is like working with an agency, minus the hassle and huge price tag. He knows his stuff, he takes the time to learn what you need, then he delivers a dynamite design that just does what you need. I've used him on multiple projects (logo, flyer, presentation graphics) and will continue to do so. He's an absolute pro and I highly recommend him!

Kevin Donlin, Client Cloning Systems

Damon is a great guy with a big heart and a lot of wonderful experience in his field! I'm impressed by his punctuality, compassion, creativity and detail-oriented approach to work and life. He follows his projects through to completion. And in a capricious, competitive industry like marketing and advertising he's solid, approachable and open-minded. I have recommended him to several clients and friends without hesitation.

Great work from Lacey Creative. Our organization used Damon to create a new logo. After trying a number of other designers, Damon was the one who finally helped us get the look we wanted. His creativity, openness to suggestions, and exceptional artistic ability made the process very enjoyable. We've received very positive responses from those who have seen the new logo. I highly recommend him to any organization looking to create a unique and compelling image.

Damon helped design a logo for a side project of mine. Damon had several great ideas, he produced samples very quick, asked my opinions and then came up with a finished product in a very short timeframe. He's a great guy to deal with and very creative! Check out my logo on Facebook (Rich's World Beer Tour) or YouTube. I would not hesitate to call Damon again for design work. Thanks Damon!!

The patience of Job. The passion of your favorite teacher. The biggest and best brain for creativity and art. These descriptions tell the story of creating a logo with Damon. We were totally new to the process and clueless. Damon is thorough in determining what makes your business rock and incorporating your sense of style. We are thrilled with the final product and all the efforts Damon took to make it absolutely perfect!

I hired Lacey Creative to help make my marketing and advertising strategy more compelling. Little did I know that by doing this I would get so much more. Damon was a fantastic resource and business partner. His work was the perfect balance between the compelling and the creative. He had tremendous ideas for my website and my materials that ended up exceeding my expectations. The best thing about working with Lacey Creative, however, was the level of responsiveness and customer service. Their services were customized and Damon patiently worked on various iterations until I was completely happy. All services were completed and delivered on time and the quality was outstanding.

In an industry full of egos, it is refreshing to work with someone as congenial as Damon. He also is very flexible about timelines and willing to put in later hours to get a project done.

Susie Weir, Freelance Copywriter/Contractor

Damon is really talented and a great person to work with. I highly recommend him. He has many talents, and his number one goal is to give you what you want and need. He's an easy guy to get along with. You'll be happy you hired him!

JoAnne Nelson, Freelance Graphic Production

Damon is the best! He was recommended to me by a friend of mine to help me with a business card and I didn't even have a name for my business when I contacted him. He spent time helping me come up with a name for my business and then, when we had come up with a name, he again spent time helping me with logo, layout and color scheme. He was always available to answer any questions and is there for you long after the project is done, as I can attest to. Damon is the 'real deal'; his humility, patience, artistic expertise and the ability to think outside of the box are next to none! I would not think twice in recommending him.

Katy Long, Nature's Stable

I have worked with several graphic artists before Damon, and I have been very, pleasantly surprised by his prompt and patient response to our questions, his level of service, and the creative, quality work we receive. I would highly recommend his services.

Dr. Joyce Tesarek, Minnehaha Animal Hospital and Pet Doctors Animal Clinic

Damon helped me out in a pinch when I lost my previous graphics designer. I am so glad I found him! He stepped in and designed business cards and letterhead for my business. He was very responsive, kept me apprised of the schedule, and completed the work quickly and just as I wanted. He also offered referrals in case I chose not to work with him... always the mark of a true professional, in my mind.
